Prior to IFCBC Children's Ministry regathering, we have cleaned and sanitized every surface in the rooms the kids will come in contact with. In addition to cleaning the rooms prior to the kid's services we have continuing sanitizing guidelines as well. The children's areas and toys are disinfected before and after use. The Children's ministry team are taking every precaution and safety measure possible to ensure the safety of the children.

Please be reminded of the following:
